

REPORT: OLIST E-COMMERCE SALES PERFORMANCE

Dataset: Olist E-Commerce (Brazil)

Tools Used: SQL, Microsoft Excel

Data Source: [Brazilian E-Commerce Public Dataset by Olist](#) (Kaggle)

1. PROJECT OVERVIEW & OBJECTIVES

This project analyzes real commercial data provided by **Olist**, the largest department store in Brazilian marketplaces. The dataset encompasses approximately **100,000 orders** placed between **2016 and 2018** across multiple marketplaces in Brazil. It provides rich transactional data, including order statuses, product attributes, customer locations, payments, and delivery timestamps.

- **Dataset Source:** Kaggle (Brazilian E-Commerce Public Dataset by Olist)
- **Direct Link:** <https://www.kaggle.com/datasets/olistbr/brazilian-ecommerce>

The analysis directly addresses **three core business questions**:

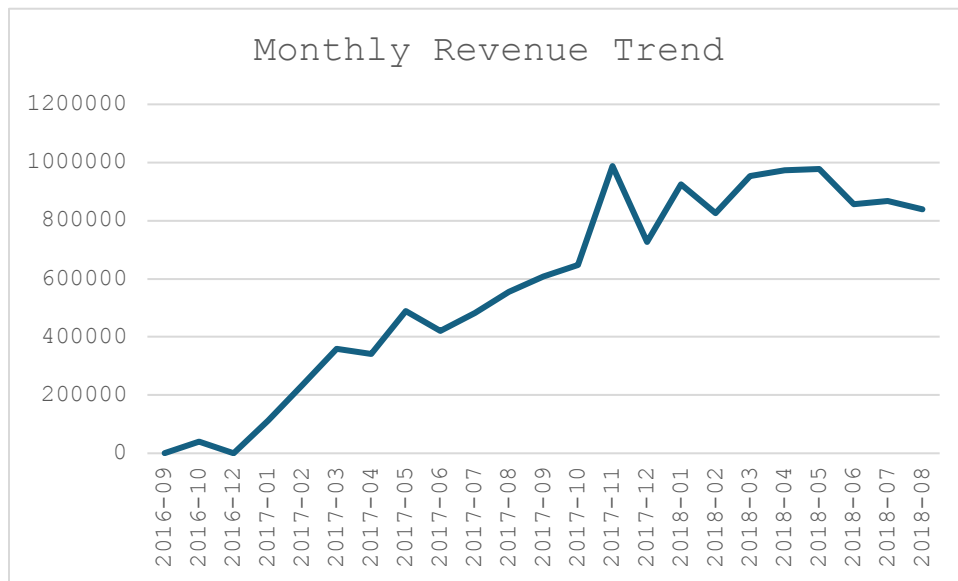

1. **Product Performance:** Which top 10 product categories generate the highest total revenue?
2. **Sales Dynamics:** How does total revenue trend over time, and are there significant seasonal peaks?
3. **Geographic Distribution:** Which customer states drive the majority of order volume and revenue?

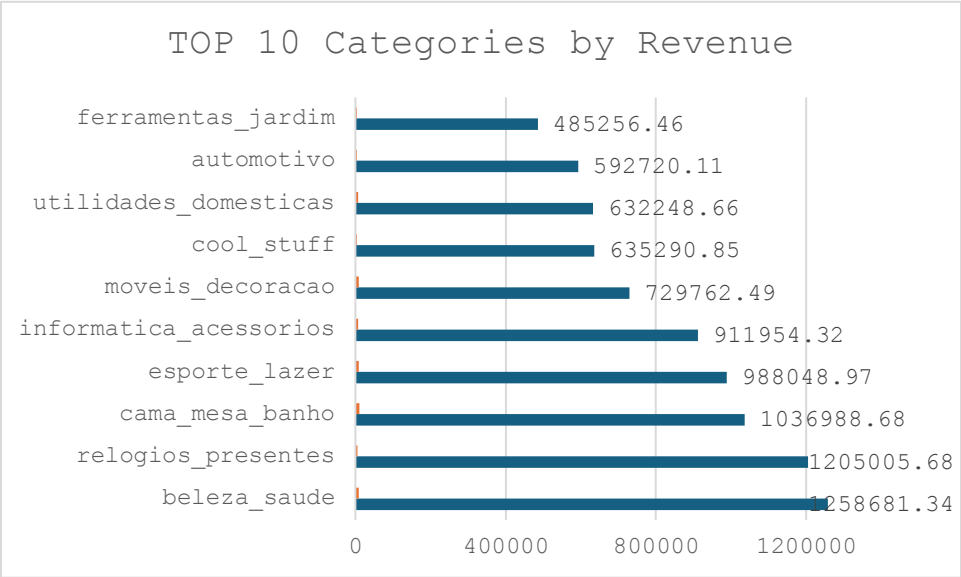

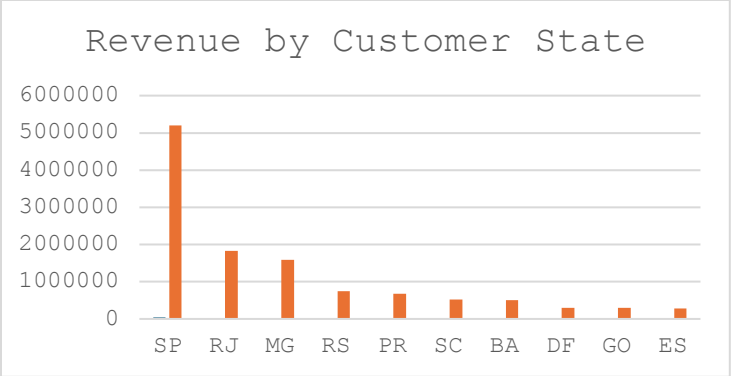

2. KEY INSIGHTS & FINDINGS

- **Top Revenue Categories:**
 - **Health & Beauty (beleza_saude):** Generated the highest revenue at ~\$1.25M.
 - **Watches & Gifts (relogios_presentes):** Ranked second with ~\$1.20M.
 - **Bed & Bath (cama_mesa_banho):** Ranked third with ~\$1.03M.
- **Sales Growth & Seasonality:**
 - The business experienced strong cumulative growth throughout 2017.

- A major sales peak occurred in **November 2017 (Black Friday)**, generating unprecedented transaction volume before stabilizing in early 2018.
- **Geographic Revenue Distribution:**
 - **São Paulo (SP)** accounts for **~\$5.1M+**, single-handedly generating more revenue than the next top five states combined.

3. EXECUTIVE DASHBOARD

4. STRATEGIC RECOMMENDATIONS

1. Inventory & Supply Chain Preparation:

- Focus warehouse space and supplier procurement on **beleza_saude** and **relogios_presentes** prior to high-volume quarters to avoid stockouts.

2. Targeted Regional Campaigns:

- Maintain dominant market share in **São Paulo (SP)** and **Rio de Janeiro (RJ)** with localized marketing while introducing targeted shipping incentives in emerging markets like RS and PR.

3. Scalable Seasonal Infrastructure:

- Optimize server bandwidth and customer support logistics ahead of November to capture peak Black Friday demand smoothly.
